Instructions on Using the Business Locator Map

The Map Key provided on the following pages lists, in sequential order, the plot number and map grid location for each associated business within the Campbell Industrial Park and Kapolei Business Park. In some cases, a plot number may reference more than one occupant. (Section 4, Business Profiles, is an alphabetical listing of all Campbell Industrial Park and Kapolei Business Park business occupants and their plot number and map grid location.) The plot numbers refer to the numbered land parcels on Map 3-1. The map grid location number can be used to help locate the plot number on the map.
